Subject: Escaped Trash Assessment Protocol

Hello,

I work in EPA Region 3 and one of my projects relates to revising the trash TMDL in a DC/MD watershed. I read that EPA Region 10 is working on an escaped trash assessment protocol. Can you by chance share that?

Also, do you happen to have any other trash resources for me to check out? Such as those to help with monitoring, assessment, loading rate estimations, etc. At this point, we're trying to collect all the information that we can.

Thank you,

Jillian Adair
